Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Subject: In the Matter of LightSquared Subsidiary LLC Request for Modification of its
Authority for an Ancillary Terrestrial Component; SAT-MOD-20101118-00239

Dear Secretary Dortch:

I am writing in support of LightSquared, the nation's first wholesale-only integrated wireless broadband and satellite network. Lightsquared has a history of supporting agencies dedicated to providing emergency services. The company provided critical essential first responder mobile satellite communications following hurricanes and floods and provided command and control communications support for massive firefighting operations.

Each year the tools of law enforcement become more sophisticated in order to address the many crisis situations we face on a daily basis. With these new tools and tactics comes a greater reliance upon fast, reliable technology.

I work in suburban law enforcement. As part of my duties I work on a multi-jurisdictional response team and a statewide response team addressing crisis situations. Fast communication utilizing reliable broadband by the command structure maintains discipline and restores order in emergency situations.

I urge you to support LightSquared's plans for a national broadband wireless service. We need to promote this opportunity to enhance our ability to protect and respond quickly.

Sincerely,

A handwritten signature in black ink, appearing to read 'K Crocker', with a long horizontal line extending to the right.
